DIAGNOSTIC MICROBIOLOGY
AND
INFECTIOUS DISEASE

Volume 13 (1990) Contents

NUMBER 1, JANUARY/FEBRUARY

Editorial Comment

RNA Homology and the Reclassification of *Pneumocystis* 1
J.K. Frenkel, Marilyn S. Bartlett, and James W. Smith

Bacteriology

A Comparison of Oxoid Signal with Nonradiometric BACTEC NR-660 for Detection of Bacteremia 3
Lynn D. Schwabe, Eileen L. Randall, Robin Miller-Catchpole, Claire I. Squires, and Richard L. Gottschall

β-Lactam Susceptibility of Coagulase-Negative Staphylococci Causing Catheter Sepsis in Pediatric Patients 9
Mario J. Marcon, Milap C. Nahata, Dwight A. Powell, and Susan M. Lisby-Sutch

Evaluation of Coagulase-Negative Staphylococcal Isolates from Serial Nasopharyngeal Cultures of Premature Infants 17
Sue L. Hall, Scott W. Riddell, William G. Barnes, L. Meng, and Robert T. Hall

Frequency of *Salmonella typhimurium* the Year After a Massive Outbreak 25
Alan A. Harris, Charles Cherubin, Richard Biek, and Lonnie C. Edwards

Mycology

Effects of Terconazole and Other Azole Antifungal Agents on the Sterol and Carbohydrate Composition of *Candida albicans* 31
M.A. Pfaller, J. Riley, and T. Koerner

Increasing Usage of Systemic Antifungal Agents 37
Thomas J. Walsh, Paul F. Jarosinski, and Robert A. Fromtling

Virology

Effect of Treatment of Shell Vial Cell Cultures with Dimethyl Sulfoxide and Dexamethasone and Age of MRC-5 Monolayers for Detection of Cytomegalovirus 41
Daniel P. Fedorko, Duane M. Ilstrup, and Thomas F. Smith

Antimicrobial Susceptibility

Comparative in vitro Activity of Cefoperazone and Various Combinations of Cefoperazone/Sulbactam **45**

Cynthia C. Knapp, Juan Sierra-Madero, and John A. Washington

In vitro Activity of Cefoperazone/Sulbactam and Other Antimicrobials Against Anaerobic Bacteria **51**

Richard F. D'Amato, Lisa Hochstein, and Harry Frankel

In vitro Activity of Meropenem (SM-7338), Imipenem, and Five Other Antibiotics Against Anaerobic Clinical Isolates **57**

Patrick R. Murray and Ann C. Niles

Notes

Optochin-Resistant Variants of *Streptococcus pneumoniae* **63**

Rosario Muñoz, Asunción Fenoll, Dolores Vicioso, and Julio Casal

Activity of Cephalosporins Against Coagulase-Negative Staphylococci **67**

Nai-Xun Chin, Natalie M. Neu, and Harold C. Neu

Lomefloxacin (SC-47111 or NY-198): Comparative Antimicrobial Activity Against 2002 Clinical Isolates from Hospitals in Mexico City **71**

F. Durazo, F. Resano, and M.A. Gonzalez

NUMBER 2, MARCH/APRIL

CIPROFLOXACIN SYMPOSIUM: MAJOR ADVANCES IN INTRAVENOUS AND ORAL QUINOLONE THERAPY

Introduction **77**

Harold C. Neu and Ronald N. Jones

In vitro Studies of Ciprofloxacin and Survey of Resistance Patterns in Current Isolates **79**

Clarence J. Fernandes and Valentine P. Ackerman

Serum Bactericidal Activity from Intravenous Ciprofloxacin and Azlocillin Given Alone and in Combination to Healthy Subjects **93**

Patricia L. Orlando, Steven L. Barriere, Janet A. Hindler, and R. Wayne Frost

Absorption of Ciprofloxacin Administered Through a Nasogastric or a Nasoduodenal Tube in Volunteers and Patients Receiving Enteral Nutrition **99**

Jae H. Yuk, Charles H. Nightingale, Richard Quintiliani, Neil S. Yeston, Rocco Orlando III, Eric D. Dobkin, Joseph C. Kambe, Kevin R. Sweeney, and Elizabeth A. Buonpane

Extravascular Penetration of Ciprofloxacin: A Review **103**

Tom Bergan

Pharmacokinetic Behavior of Ciprofloxacin Both in Native Cardiac and Porcine Valves Treated in Glutaraldehyde **115**
Peter Kalmár, Nils Goecke, Ernst Kraas, and Thomas Menzel

Transintestinal Elimination of Ciprofloxacin **127**
Rolf W. Rohwedder, Tom Bergan, Sigurdur B. Thorsteinsson, and Hans Scholl

Metabolic Interactions of Ciprofloxacin **135**
Endre Ludwig, Hedvig Graber, Éva Székely, and András Csiba

Prospective Randomized Study Comparing the Efficacy and Safety of Ciprofloxacin with Cefaclor in the Treatment of Patients with Purulent Bronchitis **143**
Ronald W. Quenzer, Robin L. Davis, and Mary M. Neidhart

A Prospective, Double-Blind, Randomized Study Comparing the Efficacy and Safety of Low-Dose Ciprofloxacin with Ampicillin in the Treatment of Bronchitis **149**
Herman Chmel, George Emmanuel, Thiam Lie, Lynn Anderson, and Jill Ireland

Ciprofloxacin in the Treatment of *Pseudomonas* Infection in Children with Cystic Fibrosis **153**
Thomas T. Rubio

Parenteral Ciprofloxacin Compared with Ceftazidime in the Treatment of Serious Upper and Lower Urinary Tract Infection **157**
Darwin L. Palmer and Frederick T. Koster

Intravenous and Oral Ciprofloxacin versus Intravenous Ceftazidime for the Treatment of Severe Urinary Tract Infections **161**
Stacy J. Childs

Comparison of Intravenous Ciprofloxacin with Ceftazidime in the Treatment of Serious Soft Tissue Infections **165**
Alan D. Tice, Peter K. Marsh, and Philip C. Craven

Ciprofloxacin in the Treatment of *Staphylococcus aureus* Osteomyelitis: A Review **169**
Brian Wispelwey and W. Michael Scheld

Intravenous and Oral Ciprofloxacin in the Therapy of Serious Infections **173**
Cynthia L. Gibert, Mary Seiler, Linda Joe, Margo A. Smith, and Fred Gordin

Ciprofloxacin Prior to Colon Surgery **177**
Arnulf Dörner, Andreas Witthohn, and Ernst Kraas

Ciprofloxacin as Single-Dose Antibiotic Prophylaxis in Colorectal Surgery: Results of a Randomized, Double-Blind Trial **181**
Günter Görtz, Jochen Boese-Landgraf, Werner Hopfenmüller, Arne Rodloff, and Jochen Kotwas

Economic Impact of Oral Ciprofloxacin Following Standard Intravenous Therapy **187**
Robert M. Fliegelman, Patricia M. Mattingly, Cindy L. Dempsey, and Stephen J. Sokalsi

Safety of Intravenous Ciprofloxacin in Healthy Volunteers after Multiple Dosing: A Review **191**
Sigurdur B. Thorsteinsson, Tom Bergan, Vimala Rahm, and Rolf W. Rohwedder

Quinolones: An Overview **195**
Harold C. Neu

NUMBER 3, MAY/JUNE

Epidemiology

Quality Assessment: An Emerging Component of Hospital Epidemiology **197**
Richard P. Wenzel

Bacteriology

Rapid Identification of *Branhamella catarrhalis:* A Comparison of Five Rapid Methods **205**
Marie Louie, Emma G. Ongsansoy, and Kevin R. Forward

Detection of Group A Streptococcal Antigen from Throat Swabs with Five Diagnostic Kits in General Practice **209**
Steen Hoffman

Use of the Gen-Probe PACE System for the Detection of *Neisseria gonorrhoeae* in Urogenital Samples **217**
Paul A. Granato and Maryann Roefaro Franz

Qualitative Intravascular Catheter Tip Cultures Do Not Predict Catheter-Related Bacteremia **223**
Ronald G. Nahass and Melvin P. Weinstein

Mycology

Relationship of Staphylococcal Conjugative Plasmids to Large Gentamicin-Resistance Nonconjugative Plasmids in Clinical Isolates of *Staphylococcus epidermidis* **227**
Marvin Rogolsky and Rae Gobert

Mycobacteriology

Measurement of Tuberculostearic Acid in Sputa, Pleural Effusions, and Bronchial Washings: A Clinical Evaluation for Diagnosis of Pulmonary Tuberculosis **235**
Hisakazu Muranishi, Michio Nakashima, Ryuichi Isobe, Tsuneji Ando, and Nobuaki Shigematsu

Virology

Comparison of Enzyme Immunoassay, Shell Vial Culture, and Conventional Cell Culture for the Rapid Detection of Herpes Simplex Virus **241**
Sheryl L. Ginnow Johnston and Charles S. Siegel

Antimicrobial Susceptibility Studies

Effect of Human Serum on the Bactericidal Activity of Daptomycin and Vancomycin Against Staphylococcal and Enterococcal Isolates as Determined by Time–Kill Kinetic Studies **245**
Charles W. Stratton and Lyndell S. Weeks

Antimicrobial Activity of Ro 24-6778, a Covalent Bonding of Desmethylfleroxacin and Desacetylcefotaxime **253**
Ronald N. Jones

Case Report

Group G Streptococcal Meningitis and Sepsis in a Patient with AIDS: A Method to Biotype Group G Streptococcus **261**

Mario C. Raviglione, Philip M. Tierno, Patrick Ottuso, Andrea B. Klemes, and Morton Davidson

Notes

Evaluation of Five Rapid Systems for the Identification of *Neisseria gonorrhoeae* **265**

Jean Dolter, Linda Bryant, and J. Michael Janda

C-Reactive Protein as a Prognostic Indicator in Acute Brucellosis **269**

J.M. Navarro, J. Mendoza, J. Leiva, R. Rodríquez-Contreras, and M. de la Rosa

Evaluation of Three Commercial Tests for Lyme Disease **271**

Sally J. Cutler and David J.M. Wright

Microscopic Examination of Stools and a Latex Slide Agglutination Test for the Rapid Identification of Bacterial Enteric Infections in Khmer Children **273**

Eva Nordlander, Surasith Phuphaisan, Ladaporn Bodhidatta, James Arthur, and Peter Echeverria

Antibacterial Activity of Lomefloxacin Against *Brucella melitensis* **277**

S.M. Hussain Qadri, Sultan Al-Sedairy, and Yoshio Ueno

NUMBER 4, JULY/AUGUST

Bacteriology

Positive Bactec Resin Cultures Do Not Influence Antimicrobial Selection **281**

Peter G. Jessamine, Darryl J. Hoban, and Kevin R. Forward

Enhancement of Virulence of Two Environmental Strains of *Vibrio vulnificus* After Passage Through Mice **285**

Charles A. Kaysner, Marleen M. Wekell, and Carlos Abeyta, Jr.

Evaluation of the FiltraCheck-UTI for Detection of Bacteriuria **289**

Charles E. Stager and James R. Davis

Mycology

Candidal Infection of Bone: Assessment of Serologic Tests in Diagnosis and Management **297**

Guillermo Quindós, Ian F. Rowe, Clare S. Higgens, José Pontón, Ramón Cisterna, and Donald W.R. Mackenzie

Virology

Evaluation of Latex Agglutination and Dot Immunobinding Assay for the Detection of Cytomegalovirus Antibody **303**

Maria T. Wilson, Robert L. Sautter, William D. LeBar, and Timothy R. Mervak

Parasitology

Evaluation of Calcofluor White Stain for Detection of *Pneumocystis carinii* **307**

Yoo K. Kim, Shehkar Parulekar, Pauline K.W. Yu, Richard J. Pisani, Thomas F. Smith, and John P. Anhalt

Antimicrobial Susceptibility Studies

Differences in the in vitro Inhibitory and Bactericidal Activity of Ceftizoxime, Cefoxitin, Cefotetan, and Penicillin G Against *Bacteroides fragilis* Group Isolates: Comparison of Time–Kill Kinetic Studies with MIC Values **311**

Kenneth E. Aldridge, Lyndell S. Weeks, Charles W. Stratton, and Charles V. Sanders

Antimicrobial Clinical Studies

Review of Cefotaxime Sodium for Surgical Prophylaxis: A Model for the Evolution Toward Single-Dose or Short-Course Cost-Effective Regimens **317**

Ronald N. Jones

Case Report

Mycoplasma hominis Infection in Three Renal Transplant Patients **329**

Consuelo Miranda, Concepcion Carazo, Rafael Bañón, Joaquin Mendoza, Antonio Montes, and Manuel de la Rosa

Notes

In vitro Acitivity of Tosufloxacin Against Bacterial Enteric Pathogens **333**

Ellen J. Glick, John Segreti, Larry J. Goodman, and Gordon M. Trenholme

A Comparison of Calcofluor White, Potassium Hydroxide, and Culture for the Laboratory Diagnosis of Superficial Fungal Infection **337**

David J.M. Haldane and Elizabeth Robart

Antimicrobial Susceptibility of Clinical Isolates of *Haemophilus influenzae* to Ampicillin–Sulbactam **341**

Joel E. Mortensen, Mark LaRocco, Sandra L. Himes, Clark Inderlied, Judy A. Daly, Joseph M. Campos, and Paul M. Mendelman

In vitro Activity of Sparfloxacin (AT-4140, CI-978, PD-131501), a New Quinolone Antimicrobial Agent **345**

George M. Eliopoulos, Karin Klimm, and M. Lindsay Grayson

In vitro Activity of BAY v 3522, a New Oral Cephalosporin Tested Against *Haemophilus influenzae* and *Branhamella catarrhalis* **349**

Gary V. Doern and Tracey A. Tubert

Broth-Disk Elution Tests to Predict the Susceptibility of Anaerobic Bacteria to the Ampicillin–Sulbactam Combination **353**

Ronald N. Jones

NUMBER 5, SEPTEMBER/OCTOBER

Antimicrobial Susceptibility Studies

Antistaphylococcal Activity of Amoxicillin and Ticarcillin When Combined with Clavulanic Acid: Evaluation of Oxacillin-Resistant and Oxacillin-Susceptible Isolates **357**
Arthur L. Barry

Case Reports

Wound Infections After Cesarean Section with *Mycoplasma hominis* and *Ureaplasma urealyticum*: A Report of Three Cases **363**
Maurizio Maccato, Sebastian Faro, and Kathy L. Summers

"*Campylobacter upsaliensis*" Sepsis in a Boy with Acquired Hypogammaglobulinemia **367**
Michael J. Chusid, Dorothy W. Wortmann, and W. Michael Dunn

Note

Antimicrobial Spectrum of Cefpirome Combined with Tazobactam Against the *Bacteroides fragilis* Group **371**
Ronald N. Jones, Janet L. Croco, Mary S. Barrett, William J. Novick, Jr., and Meredith E. Erwin

Cytokines and Infections (AIDS Excluded): Eleventh Symposium of the Pharmaco-clinique Roussel–Uclaf, Paris, 8–9 June 1989

Introduction: Scope of the Meeting **375**
Scientific Committee Chairmen: Philippe H. LaGrange and Harold C. Neu

Cytokines and Septic Shock **377**
Thierry Calandra and Michel P. Glauser

Role of Tumor Necrosis Factor and Colony-Stimulating Factors in Phagocyte Function Against *Candida albicans* **383**
Julie Y. Djeu

Colony-Stimulating Factors in Parasitic Diseases **387**
Steven G. Reed

Role of Human Recombinant GM-CSF in the Prevention and Treatment of Leukopenia with Special Reference to Infectious Diseases **391**
Angelika C. Stern and Thomas C. Jones

The Pattern of Lung Injury Induced After Pulmonary Exposure to Tumor Necrosis Factor-α Depends on the Route of Administration **397**
Henry J. Fuchs, Robert Debs, John S. Patton, and H. Denny Liggitt

Gamma Interferon in Experimental Leprosy **405**
James L. Krahenbuhl, L. David Sibley, and Gue-Tae Chae

Gamma Interferon, Cytokine-Induced Macrophage Activation, and Antimicrobial Host Defense: in vitro, in Animal Models, and in Humans **411**
Henry W. Murray

Effector Functions of Platelets in Parasitic Diseases and Their Regulation by Cytokines **423**
Claude Auriault, Martine Damonneville, Véronique Pancré, and André Capron

Interleukins, Mycobacteria, and Listeriae **429**
Stefan H.E. Kaufmann

Tumor Necrosis Factor and Malaria: Beneficial and Harmful Aspects **435**
John H.L. Playfair

Macrophage Products in Inflammation **439**
Satish Keshav, Lap-Ping Chung, and Siamon Gordon

NUMBER 6, NOVEMBER/DECEMBER

Bacteriology

Direct Gram Stain and Urease Test to Detect *Helicobacter pylori* **449**
Kenneth G. Van Horn and Brad M. Dworkin

Production and Characterization of Murine Monoclonal Antibodies Specific for Serogroups E_1 and E_4 *Salmonella* **453**
Raymond S.W. Tsang, K.H. Chan, Nelson W.H. Lau, and M.H. Ng

Biotyping of Coagulase-Negative Staphylococci: 108 Isolates from Nosocomial Bloodstream Infections **461**
Loreen A. Herwaldt, Linda D. Boyken, and Michael A. Pfaller

Epidemiologic Typing of *Enterobacter sakazakii* in Two Neonatal Nosocomial Outbreaks **467**
Nancye C. Clark, Bertha C. Hill, Caroline M. O'Hara, Olafur Steingrimsson, and Robert C. Cooksey

Direct Detection and Amplification of *Helicobacter pylori* Ribosomal 16S Gene Segments from Gastric Endoscopic Biopsies **473**
Sadayori Hoshina, Scott M. Kahn, Wei Jiang, Peter H.R. Green, Harold C. Neu, Nai Chin, Masami Morotomi, Paul LoGerfo, and I. Bernard Weinstein

Mycology

The Use of Biotyping and DNA Fingerprinting in Typing *Candida albicans* from Hospitalized Patients **481**
M.A. Pfaller, I. Cabezudo, R. Hollis, B. Huston, and R.P. Wenzel

Extracellular Proteases of *Aspergillus flavus:* Fungal Keratitis, Proteases, and Pathogenesis **491**
W.-S. Zhu, K. Wojdyla, K. Donlon, P.A. Thomas, and H.I. Eberle

Antimicrobial Susceptibility Studies

Interpretive Criteria, Quality Control Guidelines, and Drug Stability Studies for Susceptibility Testing of Cefotaxime, Cefoxitin, Ceftazidime, and Cefuroxime Against *Neisseria gonorrhoeae* **499**
Ronald N. Jones, Peter C. Fuchs, John A. Washington II, Thomas L. Gavan, Patrick R. Murray, E. Hugh Gerlach, and Clyde Thornsberry

In vitro Activity of HRE 664, a Penem Antibiotic 509
Nai-Xun Chin and Harold C. Neu

Case Reports

Successful Treatment of *Candida* Osteomyelitis with Fluconazole: A Noncomparative Study of Two Patients 517
Alan M. Sugar, Carol Saunders, and Richard D. Diamond

Stomatococcus mucilaginosus Bacteremias: Typical Case Presentations, Simplified Diagnostic Criteria, and a Literature Review 521
P.S. Mitchell, B.J. Huston, R.N. Jones, L. Holcomb, and F.P. Koontz

Volume 13 Author Index 527

Volume 13 Subject Index 529
